

Digital Controllers

Functions include:

- Alarms with 6 options
- Sleeve mounting for easy maintenance
- Easy to use and configure
- PID Control, PID auto-tuning
- Universal inputs
- Optional output module
- Various DIN sizes

Functions include:

- Single Input Temperature controller
- Dual channel temperature controller
- Single input humidity controller
- Temperature & humidity controller
- Air conditioner controller
- Temperature Differential controller

Temperature Humidity Controllers

PH Controller

Functions include:

- Sleeve mounting for easy maintenance
- Auto calibration
- LED or LCD display
- Compact size
- Friendly interface, easy to operate and configure
- Easy installation and wiring
- RS232/485 communication option
