

## ELP 2.7kVA Portable Generator

### Ultra Silent Power, Unmatched Performance

The ELP 2.7kVA Portable Generator technology delivers exceptional starting power up to 3000W, far exceeding typical 2kW generators. Designed to power motor-driven appliances like 1.5P air conditioners, water pumps, ovens, and cleaning machines, it expands the range of applications for portable generators.

- 
- **Higher Starting Power:** 3000W maximum output for demanding equipment.
  - **Fuel Efficiency:** 15% lower consumption compared to competitors.
  - **Extended Runtime:** 5L fuel tank allows for 6-20 hours of continuous operation.
  - **Ultra Silent Operation:** 52-59 dB(A) at 7 meters.
  - **Lightweight and Portable:** Only 19.5 kg.
  - **Easy Maintenance:** Access to all parts within 8 minutes.
  - **Stable Output:** 3000W maximum, reliable performance without power drop.
  - **High Temperature Resistant:** Operates efficiently up to 45°C.
  - **User-Friendly Control Panel:** All controls integrated on one side.
  - **Innovative Design:** Fully enclosed, dual-fan, dual-air channel structure for enhanced cooling and noise control.
- 

#### Technical Specifications:

- **Engine Type:** Air-cooled, 4-stroke, Single cylinder
- **Starting System:** Recoil starter
- **Displacement:** 79 cc
- **Fuel Capacity:** 5 L
- **Running Time:** 5-20 hours
- **Noise Level:** 52-59 dB(A) at 7m
- **Rated AC Output:** 2100 W
- **Maximum AC Output:** 3000 W
- **Total Harmonic Distortion (THD):** <2.5%
- **Dimensions:** 512 x 315 x 447 mm
